Re: Notification of Intent to Develop a Groundwater Sustainable Plan (GSP)

Dear Mr. Joseph,

Pursuant to California Water Code Section 10727.8 and California Code of Regulations Section 353.6, the California Department of Water Resources ("DWR") is hereby given notice that the Root Creek Water District Groundwater Sustainability Agency ("RCWD GSA") intends to develop a Groundwater Sustainability Plan ("GSP") for its service area within the Madera Subbasin (Sub Basin Number 5-022.06, DWR Bulletin 118). The RCWD GSA is an exclusive GSA whose formation was posted by DWR on July 22, 2016.

The RCWD GSA has formed a technical advisory ad hoc committee to develop and implement the GSP. The committee will report any activity to the Board at the monthly meeting where public comments can be made. Public workshops will be conducted to obtain input to finalize the GSP. The plan is to develop a single GSP covering the Madera Subbasin for the multiple GSAs in the area.

Respectfully,

Nick Bruno  
Chairman of the Board of Directors  
Root Creek Water District Groundwater Sustainability Agency
