P.O. Box 27950  
Fresno, CA 93729

**NOTICE TO PROPERTY OWNERS OF  
PUBLIC HEARING  
November 13, 2023 at 11:00 am  
ON PROPOSED RATES, FEES, AND  
ASSESSMENTS**

**Overview**

The Root Creek Water District (District) sustainably manages surface water and groundwater resources to provide available water supply for agricultural and municipal customers within the District. The District imports and delivers surface water to agricultural customers and simultaneously provides potable water, stormwater, and sewer services to municipal customers. The District intends to adopt a rate schedule to recover the District’s share of providing agricultural and municipal services. Rates proposed for years following 2024 are listed for informational purposes.

The District completed a Municipal Rate Study Update in 2022, approved by the landowners in the District, to fairly determine the costs and rates for agricultural water service and municipal utility services. Connection Fees are reflective of the 2021 Connection Fee Update. The costs are found in Table 1., Table 2., Table 3., Table 4., and Table 5, and are the estimated costs to provide services.
