Meter Installation Fees**

P.O. Box 27950 Fresno, CA 93729

Overview

The Root Creek Water District (District) sustainably manages groundwater resources to provide available water supply for Agricultural and Municipal customers within the District. The District provides drinking water, storm drain and wastewater services to municipal customers. The District intends to adopt an increase in inspection and meter rates to recover the District's share of providing inspection of construction activities and meter installation.

A Miscellaneous Service Fees Report (October 2017) fairly determined the costs and rates for conducting inspections of construction activities and facilities within the District boundary. Meter fees were last adjusted in 2023. Increased costs from the meter supplier have prompt an increase in meter fees. The costs found in Table 1. are the costs to provide services. Fees or service charges are charged at the cost of service or material.

Table 1. Meter Installation Rates				
Meter Size	Meter Cost	Installation	Administration	Total Fee
1.0" E series w/endpoint	\$683.29	\$104.57	\$30.00	\$817.86

Public Participation

Any member of the public may request data indicating the estimated cost required to provide the service for which the fee or service charge is levied and the revenue sources anticipated to provide the service. Members of the public may comment on the proposed rates in writing or in person at the public hearing, so long as they are received prior to the conclusion of the public hearing. Written requests/correspondence may be submitted by mail to the Root Creek WD District Secretary, P.O. Box 27950 Fresno, CA 93729.
